PROFILE

Dynamic and results-driven ERP Software Developer with a passion for designing and implementing innovative solutions to enhance organizational efficiency. Seeking a challenging role where I can leverage my expertise in ERP systems development, programming languages, and database management to contribute significantly to the success of projects. Eager to collaborate with cross-functional teams, stay abreast of emerging technologies, and drive continuous improvement. Committed to delivering high-quality software solutions that meet or exceed client expectations while maintaining a focus on scalability, usability, and performance. Aspiring to contribute my skills and creativity in a forward-thinking company that values innovation and fosters professional growth.

WORK EXPERIENCE

Syvasoft Business Solutions Pvt.Ltd

AUG 2022 - PRESENT

Software Developer

- Customize ERP software to align with the unique needs of the organization.
- Configure ERP modules and settings according to business requirements.
- Write code for ERP modules, customizations, and integrations.
- Utilize programming languages such as Java, C#, Python, or other languages depending on the ERP platform.
- Strong problem-solving skills to address complex issues and challenges that may arise during ERP development and implementation.
